2. Next week 3 Vietnamese students who completed language training in December will return for a two-week refresher course. This is part of a new program of providing such training to those who have had a significant gap between completion of training and departure for overseas duty.

notes out

3. We have just completed installation of 32 new Ampex E65 tape recorders in the Arlington Towers laboratory. Along with the 10 cassette positions, this gives us an excellently equipped laboratory in line with our teaching methods. The next step in modernization will be replacement of the carrels many of which have been in use since 1951.
